

AquaJet (diesel)

Rioned

Setting the standard

- Very compact build
- Low weight
- Choice of different engines, pumps, water tanks
- Very service friendly
- Modern design
- Fits into almost every van

High pressure skid
mounted jetting units

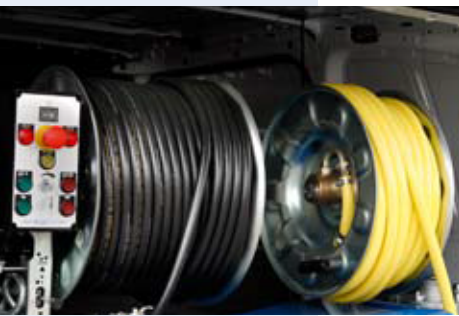

AquaJet

The popular AquaJet skid mounted jetting unit has undergone a redesign and now offers you the user even more advantages. The new AquaJet is even more compact, lighter, more silent, more user-friendly, has a larger water tank and has a full new design.

The new AquaJet is suitable for unblocking and cleaning of drains and sewers up to 350 mm.

The AquaJet has a very compact design. It fits almost every lightweight van and pick-up, such as Toyota Hiace, MB Vito, VW Transporter, VW Caddy or Peugeot Partner. The machine leaves a maximum loading space inside the van for storing other tools and equipment without exceeding the maximum payload weight. The machine can be fitted very easy.

The choice of various engines, pumps and water tanks enables Rioned to build the machine you desire. The positive price/quality proportion, results in low operational costs.

The new AquaJet is very service friendly. By removing the cover all components requiring maintenance are easily accessible, resulting in less down time your machine.

The steel hose reels and larger control box are mounted at a perfect working height, giving you ultimate operation comfort. The operator has full control of the AquaJet at the back of the vehicle.

The AquaJet is available in various configurations and can be extended with many options such as Riomote® radio remote control, Riopulse® pulsator system, hydraulic hose reel drive.

Technical details

Water tank	1 x 400, 2 x 300 or 2 x 400 litres (option)
Drive	B&S 18 hp petrol engine Honda 20 and 24 hp petrol engine Kubota 24 hp diesel engine
